

Habitat's 2021 Women's Build

- submitted by Mary Beth Padgett

Habitat for Humanity kicks off its 2021 Women's Build on **Saturday, May 15!** APC has joined this year's team, which includes groups from all over Greensboro.

Our Ladies in Fellowship Together group participated in the 2019 Women's Build. We found it thoroughly rewarding and fun (see some pictures below)! We will join an all-women volunteer crew to build a home for single mom Tamiaka and her two boys, ages 9 and 16. Tamiaka is a busy, hard-working mom; completing a sociology degree with a minor in psychology at Guilford College, while at the same time working full time and monitoring remote learning for her two sons.

Our April Special Offering will support fundraising efforts for the 2021 Women's Build home. The greater team needs to raise \$85,000. The goal for APC's contribution is \$2,000. This would

buy two doors, seven windows, landscaping, and paint!

APC has a long history of partnering with Habitat to help families achieve their goal of safe, affordable housing.

Before moving in, families participate in financial and maintenance training, support builds with 300 hours of sweat equity build time; and must have a history of steady employment and sound money management.

Once in their new home, a family must pay back an interest-free mortgage, so that these funds can be used to help build another home.

APC will participate as a team (eight people only during COVID-19) to do some of the actual building of this home for Tamiaka and her sons.

Please prayerfully consider supporting another Habitat for Humanity build by contributing to the April Special Offering!
